Loch Arklet is a small and rather uninteresting lake close to Loch Katrine. Though it bears the reputation of being "a dreary stretch of water" (Baddeley), it nevertheless possesses certain charms of its own, and the mist in "the Trossachs" makes it well worth a visit.

Thanks for the beautiful little church you sent me last week. I have had several of the new york churches so perhaps you had better not get any from there for me. This is my 6th P.C. & I am willing to exchange a few more with you if you are of the same mind. Do you like this picture, or would you rather have a city view. Have you ever been in Scotland? I had two lovely chicago churches from miss Spelling the other day! she is very kind minded. Best wishes for Easter from Alice Lyon
